

Popular Science
Book Discussion
at the
Flagstaff Public Library

The Pleasure of Finding Things Out is a magnificent treasury of Feynman's best short works.

A wide-ranging collection of lectures, interviews, articles, and speeches, it presents an intimate and fascinating view of a life in science — a life like no other.

Pick up a copy of the book at the Downtown Library's Information Desk, and join the book discussion on September 25th in celebration of the Flagstaff Festival of Science.

**Monday, September 25, 2017
6:00 PM**
